

Shir Feldman

QA Automation

QA Automation Engineer with hands-on industry experience.

I hold a diploma in Practical Software Engineering with honors.

A fast learner with strong analytical skills, I am passionate about automation, process optimization, and delivering high-quality, scalable solutions.

I thrive in dynamic, high-pressure environments and work effectively in cross-functional teams, leveraging strong communication skills and attention to detail.

Experience

○ 2025-now QA Automation Engineer | “חשבים 360”

- Develop and maintain Playwright-based automation tests in JavaScript
- Execute end-to-end, frontend, and backend tests
- Perform API testing using Postman
- Work with SQL and MongoDB for data validation and updates
- Track and manage defects using Azure DevOps
- Collaborate with development, product, and support teams

○ 2023-2025 NOC (Network operations center) Engineer | Bezeq International

- Monitored and managed internal and external IT services, including network, internet, and voice systems
- Detected, analyzed, and escalated system failures, alerts, and cybersecurity incidents in a 24/7 production environment
- Worked closely with technology experts and external vendors to troubleshoot and resolve incidents
- Gained hands-on experience in system monitoring, root-cause analysis, and incident management

Education
